PORTFOLIO

find me at **pantaleao.solutions**

BIOCICLO

Platform game for the nonprofit organization, BioLiving.
Final project for the course LABMM3.

Tech

HTML, CSS, JavaScript

Satisfaction

★★★★★

Link

biociclo.pantaleao.solutions

Roles

Management Planning, Conception
Programming Game Engine, Menu interaction
Documentation Final report

Final Observation

This was one of my favorite assignments in university. I had the pleasure to work with wonderful and extremely creative people that had no trouble in sharing and listening to many ideas that converged into one very satisfatory end product.

GrETUA.pt

Minor changes upon request of the board designers.

Tech

WordPress, CSS

Satisfaction

★★★★★

Link

www.gretua.pt

Roles

Management Client
Programming Minor changes
Documentation -

Final Observation

I lead theatre board from the Universidade de Aveiro from 2014 to 2018 and this website was donated to us as part of a partnership between GrETUA and YouClap.
My role as a client was just the request of certain functionalities and later as owner I ended up making some styling changes requested by our designers.

MiniProJava

Mini project for the course LABMM5.
Android app that allowed the user to draw shapes using the Canvas Library

Tech

Java, Android SDK

Satisfaction

★★★☆☆

Link

miniprojava.pantaleao.solutions

Roles

Management Planning, Wireframing
Programming Implementation
Documentation Final report

Final Observation

This project didn't end up as we planned iniatilly due to technical difficulties.
Nontheless this was a great learning experience, where we were able to apply core concepts of Java on a Android environment.
Fun experience but I'll stick to web development.

boox.in

Book aggregator and bookcrossing platform.
Final project for the course LABMM5.

Tech

React, Redux, Firebase

Satisfaction

★★★★★

Link

boox.in
github.com/Pantaleao/booxin-fork

Roles

Tech Planning, Conception
Programming Implementation
Documentation Final report

Final Observation

This was another one of my favorite assignments in university. I had some beforehand experience with React and was looking forward to do something like this for some time.
I should also point out that it's in my plans to release this platform available to the public.

PORTA 27

Rebuild of the web page for a non-profit association.

Tech

WordPress, CSS, PHP

Satisfaction

★★★★★

Link

www.porta27.pt soon

Roles

Management Planning, Conception
Programming Implementation
Documentation How it was made and how to use

Final Observation

This client was unhappy with the product that had been delivered previously.
I ended up redoing the whole website, making it mobile friendly and easier fot the client to be able to publish articles and other posts.

Mafalda's Portfolio

Minor changes requested by Mafalda.

Tech

HTML, CSS, Github

Satisfaction

★★★★★

Link

mafaldaamorim.github.io

Roles

Management -
Programming Minor changes
Documentation -

Final Observation

Mafalda is a good friend who loves to share UX/UI experiences with me.
Some time ago I was bored and eager to do my first pull request on a public repository and apply my CSS knowledge, so I ended up fixing some styling issues on her portfolio.

Miguel Menezes

Minor website changes-

Tech

WordPress, CSS

Satisfaction

★★★★☆

Link

mglmenezes.com

Roles

Tech -
Programming Minor changes
Documentation -

Final Observation

A really good friend was overloaded with work and asked me to do some fixing for him. I removed and unwanted hamburguer menu, made a proper display of the event calendar and redid the social media buttons.

TIDAL FLUID POWER

Website and online store rework.

Tech

WordPress, CSS

Satisfaction

★★★★★

Link

tidalfluidpower.com.au soon

Roles

Management -
Programming Styling
Documentation -

Final Observation

Currently the biggest project I'm working on. I had never had the chance to create an online store and wanted to learn how to and migrate product information from the previous online store.
